(Please scroll down for Assignments and Best of Best Student Galleries)

Everything needed for this class will be posted on our class website under Recent Assignments here: <http://www.mrstilesphotographyclass.com/recAssign.html>

Best of class galleries for each assignment are also posted there.

Assignments will additionally be posted on Aeries and Teams. Please see my comments on your work in Aeries. Your grades are based mostly on the proven effort you give it. Meet your deadlines, late work will lower your grade by 10 points for each week it's late. Late work will not be accepted beyond 4 weeks from due date. Expect a new photo assignment every two weeks.

Photos will be turned in and uploaded here only: [GOOGLE DRIVE](#)

Course textbook link for open book quizzes is here: [PHOTO COURSE](#)

Quizzes should be turned in on Teams Only as Word Documents!

Some additional assignments will be taken on the School's PLP Class: Introduction to Photography.

Students are expected to have their own digital cameras (12 mega-pixels minimum) with some manual controls (Aperture Priority & Shutter Speed Priority). See recommendations here: http://www.mrstilesphotographyclass.com/docs/Camera_Recommendations.pdf

Students will use School Provided Adobe Photoshop photo editing software along with other graphic design software programs to create digital portfolio projects and presentations.

Live class lessons on Teams will take place at the beginning of class. Don't be late! Your computer camera needs to be on with your face showing at all times during lessons. Students receive 100 points for participation each semester, and lose those points for unexcused absences and breaking class

rules. Students contact me primarily through Teams. Parents may email me here: stilesj@pvpusd.net
