Fall 2020

Photo Project: STILL LIVES:

12 Or More Photos Documenting Your Life Under Quarantine, or Anything Corona Virus Related.

Two paragraphs of writing are also required to go along with these photos!

In the photos and writings I would like you to illustrate your feelings or experiences during this quarantine. Show us the bad and/or the good aspects of it.

It is open to a wide range of subject matter, your family, yourself, pets, what you do for fun to pass the time, or what frustrations you may have. You could show images of empty grocery store shelves, news headlines, screen captures of computer errors, the many different Apps we now need to use on screen, or photos of isolation and empty streets.

You could also show the positive aspects like a greater closeness to family, the home and pets. Maybe you did a spring-cleaning of your garage or a family BBQ. Photos of screens showing your favorite Social Media, Friends, TV shows or Zoom sessions are other options. Consider also masks, rubber gloves or even some self-portraits!

This is a long-term project of 3 weeks. Meaning you should be taking photos for it every other day for 3 weeks. Select Best of Best photos may be shown in the “Principles Update” with your permission.
